

Meet Texas - Rose

Affectionately known as Texas-Rose or Rosie. Texas-Rose is a delightfully shy little girl aged 3.

When you first meet Texas-Rose you are drawn to her beautiful blue eyes, dark brown hair, and cute chubby cheeks and when she feels safe and ready her great big smile.

Texas-Rose is happy and settled. She loves to play with her toys and play catch with a soft ball, but messy play and sensory type activities are her favourite. She enjoys bubble games and popping bubbles with her fingers or when they land on her face, which always makes her smile and giggle. Her favourite character is Peppa Pig, and she enjoys music and seeing her friends.

Texas-Rose is becoming increasingly inquisitive of her surroundings and wants to take part in what everyone else is doing. She especially likes visitors to her home and checking them out. She is growing more confident with her physical movement and can sit unaided. She has a walker to use within the home and can commando crawl, which gets her where she needs to be.

Texas-Rose's birth family were unable to care for her significant and complex needs. She is thriving with her foster carers but now needs and deserves a family of her own so she can reach her full potential.

Caring for Texas - Rose

Texas-Rose was born with spina bifida and hydrocephalus. She has no feeling in her lower body but can move around independently in the home with her walker and at school and in the community using her 'buggy' as she calls it (wheelchair). This allows her to interact with her friends and engage in physical play. Texas-Rose also has a catheter fitted which needs emptying and cleaning during the day – something she will hopefully be able to do herself as she gets older.

Texas-Rose has some speech delay which is being supported by play therapy to help it develop. She has no other concerns health wise. Texas-Rose will need ongoing health interventions from a range of professionals to enable her to reach her potential and to become increasingly independent as she grows.

Texas-Rose attends nursery 3 mornings a week and is settled. She loves seeing and spending time with her friends and particularly enjoys adult attention. She is a very sociable little girl.

Could you be the right family for Texas - Rose?

Texas-Rose needs a family who will be able to understand and commit to caring for. She needs a family who can support her increasing independence and where she can be the centre of their world. Texas-Rose needs a family willing to adapt their home to meet her physical needs and would ideally be the only or youngest child in your family. Could you be a family for Texas-Rose?
